11/1/69

Dear Mike,

I should like copies of the following charged to my account. If it is not too much trouble, would you please, after charging these items, tell me what remains in it so that, if the deposit is getting small, I may add to it?

Exhibits ~~CE~~ 391 and 740, the latter printed from the original negative, if possible, if not, from the closest copy to the original, 8x10, and the former copied from the original. With respect to CE 740, if there is any descriptive or identification material on the back, I would like a xerox, please; and if there are any documents pertaining to this in the files, I would appreciate a list of them. In addition to the copy of CE391 made from the original, I would also like the copy signed by Admiral Burkley and all memos and letters of transmittal and distribution and any and all appendages.

From the name files and any others I would like two copies of each document on each of the following, including those in which the people are referred to:

Frederick S. O'Sullivan and Francis O'Sullivan (New Orleans); and H.L., Lamar and Bunker Hunt, Dallas.

If this material is copied before the slides are returned, please mail it. If the slides come in, if you will let me know I will come down and get all at the same time.

Thank you very much.

Sincerely,

Harold Weisberg
